## PROJECT PROFILE / September, 1995

**PROJECT:** Creative Croissant / DEN  
**CLIENT:** St. Clair Development Company  
**LOCATION:** Denver International Airport ( DEN )  
Landside Terminal / Mod 3  
**ARCHITECT:** RCS AIRdesign

## PROGRAM:

To create a 1,800.0 s.f. QSR space in the new Landside Terminal that would build on the Concessionaire's existing prototype design. To design strategy addressed the existing base building storefront and the new baggage system directly below the space. The design provided a clean, modern interpretation of the Client's current kiosk prototype concept design with an integrated seating area.

## SERVICES PROVIDED:

Part 2 and 3 Services addressed a complete three phase technical drawing submittal process as well as Bidding coordination and Construction Contract Administration. Specific Part 2 Services included Programming, Site Evaluation, Architectural Design, Interior Design, Materials Selection, and Signage.
